INTRODUCTION

In order to assist the reader in locating the data more easily for each district or band, the districts are ordered alphabetically within each region and the bands are ordered alphabetically within each district. The band number also is included beside each band name.

Any administrative changes to the bands or districts occurring in 1980 appear on page (xi).

The symbols used in the statistical tables are TOT for total population, M for male population and F for female population.

The full definitions for the type of residence are described below; abridged definitions and the corresponding code numbers are shown on each page of the statistical report.

The reader should note that the On Reserve type of residence is expanded to include registered Indian band members who are living (1) on reserves set aside for their band, and living (2) on reserves set aside for other bands. The same applies to the registered Indian band members who are living (3) on Crown land in a community administered by their band, living (4) on Crown land in a community administered by other bands, and living (5) on Crown land in a community which is not administered by any specific band.

Finally, those band members who are not living on reserve or on Crown land as defined above are coded as (6) Off Reserve.

As a result of the new residence definitions, the On Reserve population, namely the sum of the population living (1) on reserves set aside for their band and the population living (2) on reserves set aside for other bands, will not be historically comparable to the "on reserve" population figures prior to 1974. The same holds true for the On Crown Land and Off Reserve populations. However, the new residence definitions provide a significant improvement to the quality of the residence data since they are more precise than the old definitions.

INTRODUCTION

Afin d'aider le lecteur à repérer plus facilement chaque district ou bande, les districts sont disposés par ordre alphabétique à l'intérieur de chaque région, et les bandes sont également disposées par ordre alphabétique à l'intérieur de chaque district. Le numéro de la bande apparaît à côté du nom de chaque bande.

Tous les changements administratifs survenus dans le cas des bandes et des districts au cours de 1980, sont indiqués à la page (xi).

Dans les tableaux statistiques, le symbole TOT représente la population entière, M la population masculine et F la population féminine.

Les types de résidence sont décrits en détail ci-après. Les descriptions en abrégé et les numéros de code correspondants apparaissent sur chaque page du rapport statistique.

Le lecteur devra noter que le type de résidence Dans une réserve comprend les membres inscrits de bandes qui résident (1) dans des réserves mises de côté pour leur bande et ceux qui résident (2) dans des réserves mises de côté pour d'autres bandes. Il en est de même pour les membres inscrits de bandes indiennes qui habitent

sur une terre de la Couronne. La catégorie Sur une terre de la Couronne comprend les membres de bandes qui habitent (3) sur une terre de la Couronne dans une communauté administrée par leur bande, ceux qui habitent (4) sur une terre de la Couronne dans une communauté administrée par d'autres bandes, et ceux qui habitent (5) sur une terre de la Couronne dans une communauté qui n'est pas administrée par aucune bande spécifique. En dernier lieu, les membres de bandes qui n'habitent pas dans les réserves ni sur une terre de la Couronne sont codés (6), c'est-à-dire, habitant Hors d'une réserve.

A la suite de ces nouvelles définitions de types de résidence, la population Dans une réserve, c'est-à-dire, la somme de la population résidant (1) dans des réserves mises de côté pour la bande et la population résidant (2) dans des réserves mises de côté pour d'autres bandes, ne sera pas comparable historiquement aux chiffres de population dans les réserves avant 1974. Il en est de même pour la population Sur une terre de la Couronne et la population Hors d'une réserve. Quoiqu'il en soit, ces nouvelles définitions améliorent sensiblement les données concernant la résidence, puisqu'elles sont plus précises que les anciennes définitions.

INTRODUCTION

The Department of Indian Affairs and Northern Development (DIAND) is required by the *Indian Act* (Chapter I, Section 5 (1)) to record in the **Indian Register** the names of individuals who are registered under the Act. The Indian Registry System (IRS) is a database which records individuals' name and a range of non-statutory data. The *Registered Indian Population by Sex and Residence* describes the IRS population as recorded at December 31, 1998. Descriptive statistics are developed from the IRS that include sex, age, residence, registry group, responsibility centre and region.

DATA ORGANIZATION

Data are organized in two broad sections. The first section provides summary statistics that includes age and gender distribution and residency comparisons for all regions and Canada. The second section presents detailed information for each registry group arranged by sex, residence, responsibility centre and region. Registry groups are listed in alphabetical order within each responsibility centre. The registry group number is given next to the registry group name (see page xi for the definition of registry group).

INTRODUCTION

En vertu de la *Loi sur les Indiens* (chapitre I, Section 5 (1)), le ministère des Affaires indiennes et du Nord canadien (MAINC) est tenu d'inscrire au **Registre des Indiens** le nom des individus inscrits conformément à la Loi. Le système d'inscription des Indiens (SII) est une base de données contenant le nom des individus inscrits et une série de données supplémentaires. La *Population indienne inscrite selon le sexe et la résidence* décrit la population du SII telle qu'inscrite au 31 décembre 1998. Des statistiques sont compilées à partir du SII telles le sexe, l'âge, la résidence, le groupe d'enregistrement, le centre de responsabilité et la région.

ORGANISATION DES DONNÉES

Les données sont divisées en deux sections principales. La première porte sur des statistiques sommaires ayant trait à la distribution selon l'âge, le sexe et le type de résidence pour toutes les régions et le Canada. La deuxième section comprend des informations détaillées sur chaque groupe d'enregistrement, selon le sexe, la résidence, le centre de responsabilité et la région. Les groupes d'enregistrement sont en ordre alphabétique par centre de responsabilité. Le numéro de groupe d'enregistrement apparaît à côté du nom du groupe (voir page xi pour la définition de groupe d'enregistrement).

5. On Crown Land (No Band)

Indian Register individuals who are band members or who are descendants from members of a band who are residing on Crown land in a community not administered by any specific band.

6. Off Reserve

Indian Register individuals who are band members or who are descendants from members of a band who are residing neither on reserve nor on Crown land.

Distinction between the words “Band” and “Reserve”

As a descriptive term, **band*** simply refers to a “...body of Indians...”.

A **reserve***: “...(a) means a track of land, the legal title to which is vested in Her Majesty, that has been set apart by Her Majesty for the use and benefit of a band, ...”

At the time of the writing of this document, there are 2,497 reserves in Canada.

NOTE TO USERS

By design, the Indian Register is meant to record individual names in accordance with specific sub-sections of the *Indian Act*. The Indian Register does not include all persons who are entitled to be registered according to the *Indian Act*. It covers only those who have applied to be registered and whose entitlement has been verified. Therefore, data from the IRS may not fully meet the requirements of some statistical activities (e.g. demographic projections, migration patterns).

*Source: *Indian Act*

5. Sur une terre de la Couronne (aucune bande)

Au Registre des Indiens, les membres d'une bande ou leurs descendants qui résident sur une terre de la Couronne dans une collectivité qui n'est administrée par aucune bande.

6. Hors réserve

Au Registre des Indiens, les membres d'une bande ou leurs descendants qui ne résident ni dans une réserve ni sur une terre de la Couronne.

Distinction entre les mots “Bande” et “Réserve”

Une **bande*** est un “...groupe d'Indiens...”.

Une **réserve*** est: “...parcelle de terrain dont Sa Majesté est propriétaire et qu'elle a mise de côté à l'usage et au profit d'une bande...”

Au moment de la rédaction de ce document, il y a 2 497 réserves au Canada.

À L'INTENTION DES LECTEURS

Le Registre des Indiens a pour objet de contenir les noms individuels en vertu de la *Loi sur les Indiens*. Le Registre des Indiens ne contient pas le nom de toutes les personnes ayant le droit d'être inscrites en vertu de la *Loi sur les Indiens*. Il ne contient que le nom des personnes qui ont fait une demande d'inscription et dont les droits ont été certifiés. Conséquemment, les données du SII pourraient ne pas satisfaire les exigences de certaines activités statistiques (p.ex.: projections démographiques, caractéristiques sur la migration).

There is a reporting lag between the occurrence of a given life event and its being reported and recorded for updating of the Indian Register. This means that events occurring prior to December 31, 1998 may not be reflected in the Indian Register as documented on December 31, 1998. The following examples illustrate this concept:

1. Infants entitled to be registered at birth may not be registered by the December 31st reporting date. Parents often do not report the birth until a later year. It is estimated that of all births reported in 1998, 70 percent had actually occurred prior to 1998.
2. Individuals can remain on the Indian Register for some time after they are deceased. A certificate of death or a confirmation of presumed death is normally required to remove a name from the Indian Register.
3. Residency codes are typically updated when a life event is reported, although some bands do it more frequently.

SOURCE OF DATA

Individuals are considered Registered Indians if their names appear on the Indian Register. Names are added or deleted from the Indian Register based on legal sources of information such as provincial birth or death certificates.

The addition or removal of a name to or from any part of the Indian register is approved by the Registrar as set out in the Indian Act.

Il y a un délai entre le moment où un événement se produit, est déclaré et subséquemment documenté et la mise à jour du Registre des Indiens. Il est donc possible que certains événements qui se sont produits avant le 31 décembre 1998 ne soient pas inscrits au Registre des Indiens tels que documentés au 31 décembre 1998. Les exemples suivants illustrent ce concept:

1. Les nouveaux-nés ayant droit à l'inscription au moment de leur naissance peuvent n'être pas inscrits au 31 décembre. Souvent, les parents ne déclarent la naissance de leur enfant que plusieurs années plus tard. Il est estimé, que de toutes les naissances inscrites en 1998, 70 pourcent ont eu lieu avant 1998.
2. Le nom de personnes décédées ne sont rayés du Registre des Indiens que lorsque le MAINC est avisé officiellement des décès. Un certificat de décès ou une confirmation de décès présumé est normalement nécessaire pour rayer un nom du Registre des Indiens.
3. Les codes de résidence ne sont normalement mis à jour que lorsqu'un événement est inscrit malgré que certaines bandes font une mise à jour plus fréquemment.

SOURCE DES DONNÉES

Des individus sont considérés comme des Indiens inscrits lorsque leurs noms apparaissent sur le Registre des Indiens. Les noms sont ajoutés au Registre des Indiens ou en sont rayés à partir de sources légales d'information, par exemple les certificats provinciaux de naissance ou de décès.

L'addition ou la suppression d'un nom au Registre des Indiens doit être approuvée par le Registraire

3. Only the counts for residence codes 1 and 3 identify the location of individuals. The counts for residence codes 2, 4, 5 and 6 do not indicate that the individuals reside in that particular region necessarily.

3. Seuls les comptes des codes de résidence 1 et 3 indiquent le lieu de résidence des individus. Les comptes des codes de résidence 2, 4, 5 et 6 n'indiquent pas nécessairement le lieu de résidence des individus.

INTRODUCTION

The Department of Indian Affairs and Northern Development (DIAND) is required by the *Indian Act* (Chapter I, Section 5 (1)) to record in the **Indian Register** the names of individuals who are registered under the Act. The Indian Registry System (IRS) is a database which records individuals' names and a range of non-statutory data. The *Registered Indian Population by Sex and Residence* describes the IRS population as recorded at December 31, 2001. Descriptive statistics are developed from the IRS that include sex, age, residence, registry group, responsibility centre and region.

DATA ORGANIZATION

Data are organized in two broad sections. The first section provides summary statistics that include age and gender distribution and residency comparisons for all regions and Canada. The second section presents detailed information for each registry group arranged by sex, residence, responsibility centre and region. Registry groups are listed in alphabetical order within each responsibility centre. The registry group number is given next to the registry group name (see page ix for the definition of registry group).

DEFINITION OF TYPES OF RESIDENCE

1. On Reserve (Own Band)

Indian Register individuals who are band members or who are descendants of band members residing on reserves, on Category 1A* and Category 1A-N* lands, on Sechelt* lands, or on Nisga'a* lands set aside for their band.

2. On Reserve (Other Band)

Indian Register individuals who are band members or who are descendants of band members residing on reserves, on Category 1A* and Category 1A-N* lands, on Sechelt* lands, or on Nisga'a* lands set aside for other bands.

"...Category 1A land... for the exclusive use and benefit of a Cree band,..."

"...Category 1A-N land... for the exclusive use and benefit of the Naskapis de Schefferville band,..."

Sechelt lands: *Sechelt Indian Band Self-Government Act, 1986*

Nisga'a lands: *Nisga'a Final Agreement Act, 2000*

3. On Crown Land (Own Band)

Indian Register individuals who are band members or who are descendants of band members residing on Crown land in a community administered by their band.

4. On Crown Land (Other Band)

Indian Register individuals who are band members or who are descendants of band members residing on Crown land in a community administered by other bands.

5. On Crown Land (No Band)

Indian Register individuals who are band members or who are descendants of band members residing on Crown land not administered by any specific band.

6. Off Reserve

Indian Register individuals who are band members or who are descendants of band members residing neither on reserve nor on Crown land.

Distinction between the words “Band” and “Reserve”

A **band*** simply refers to a “...body of Indians...”.

A **reserve***: “...(a) means a tract of land, the legal title to which is vested in Her Majesty, that has been set apart by Her Majesty for the use and benefit of a band, ...”

At December 31, 2001, there were 612 Bands in Canada, and 2,675 reserves.

NOTE TO USERS

By design, the Indian Register is meant to record individual names in accordance with specific sub-sections of the *Indian Act*. The Indian Register does not include all persons who are entitled to be registered according to the *Indian Act*. It covers only those who have applied to be registered and whose entitlement has been verified. Therefore, data from the IRS may not fully meet the requirements of some statistical activities (e.g. demographic projections, migration patterns).

There is a reporting lag between the occurrence of a given life event and its being reported and recorded for updating of the Indian Register. This means that events occurring prior to December 31, 2001 may not be reflected in the Indian Register as documented on that date. The following examples illustrate this concept:

1. Infants entitled to be registered at birth may not be registered by the December 31st reporting date. Parents often do not report the birth until a later year. It is estimated that of all births reported in 2001, approximately 70 percent had actually occurred prior to 2001.

2. Individuals can remain on the Indian Register for some time after they are deceased. A certificate of death or a confirmation of presumed death is normally required to remove a name from the Indian Register.
3. Residency codes are typically updated when a life event is reported, although some bands do it more frequently.

SOURCE OF DATA

Individuals are considered Registered Indians if their names appear on the Indian Register. Names are added or deleted from the Indian Register based on legal sources of information such as provincial birth or death certificates.

The addition or removal of a name to or from any part of the Indian Register is approved by the Registrar as set out in the Indian Act.

The following concepts may affect interpretation and utility

1. Data in the detailed tables are presented by registry group. A registry group is an administrative term applied to a group of Indian Register individuals who have membership in a particular Indian band, or, are descendants from members of that band. A band usually relates to only one registry group except in the following three cases: Six Nations of the Grand River band in the Ontario Region consists of 13 registry groups (pg.xiv); Stoney band in the Alberta Region consists of 3 registry groups, Stoney (Chiniki), Stoney (Wesley) and Stoney (Bears paw); and the Champagne and Aishihik First Nations band in the Yukon Region consists of two registry groups (Aishihik and Champagne). The registry groups related to these bands are noted in the detailed tables.
2. Affiliation of an individual with a particular registry group in the Indian Registration System is based on ancestry and may not equate to local band membership rules. Bands may choose to legally take control of their membership rules in accordance with Section 10 of the *Indian Act*. There are currently **232** bands who have done so. Membership may be determined by other than the *Indian Act*, such as the *Cree-Naskapi (of Quebec) Act* (9 bands), the *Nisga'a Final Agreement Act* (4 bands), the *Sechelt Indian Band Self-Government Act* (1 band) and the *Yukon First Nations Self-Government Act* (6 bands). The statistics in this publication report the number of individuals who are registered with a registry group and make no statement as to whether or not they are band members.
3. Only the counts for residence codes 1 and 3 identify the location of individuals. The counts for residence codes 2, 4, 5 and 6 do not indicate that the individuals reside in that particular region necessarily.

INTRODUCTION

The Department of Indian Affairs and Northern Development (DIAND) is required by the *Indian Act* (Chapter I, Section 5 (1)) to record in the **Indian Register** the names of individuals who are registered under the Act. The Indian Registry System (IRS) is a database which records individuals' names and a range of non-statutory data. The *Registered Indian Population by Sex and Residence* describes the IRS population as recorded at December 31, 2002. Descriptive statistics are developed from the IRS that include sex, age, residence, registry group, responsibility centre and region.

DIFFERENCES FROM THE 2001 EDITION

The two Innu Nations of Labrador were added to the IRS in 2002. Population counts can be found in the Detailed Tables section for Mushuau Innu First Nation and Sheshatshiu Innu First Nation. Both are located in the Atlantic Region.

For purposes of the Privacy Act and to protect the personal information of individuals, Registry Groups with total membership of less than 100 people have been suppressed from the Detailed Tables section. Their counts, however, are included in aggregations to district, regional and national totals.

DATA ORGANIZATION

Data are organized in two broad sections. The first section provides summary statistics that include age and gender distribution and residency comparisons for all regions and Canada. The second section presents detailed information for each registry group arranged by sex, residence, responsibility centre and region. Registry groups are listed in alphabetical order within each responsibility centre. The registry group number is given next to the registry group name (see page ix for the definition of registry group).

DEFINITION OF TYPES OF RESIDENCE

1. On Reserve (Own Band)

Indian Register individuals who are band members or who are descendants of band members residing on reserves, on Category 1A* and Category 1A-N* lands, on Sechelt* lands, or on Nisga'a* lands set aside for their band.

2. On Reserve (Other Band)

Indian Register individuals who are band members or who are descendants of band members residing on reserves, on Category 1A* and Category 1A-N* lands, on Sechelt* lands, or on Nisga'a* lands set aside for other bands.

"...Category 1A land... for the exclusive use and benefit of a Cree band,..."

"...Category 1A-N land... for the exclusive use and benefit of the Naskapis of Quebec band,..."

Source: *Naskapi (of Quebec) Act. (James Bay and Northern Quebec Agreement)*

Sechelt lands: *Sechelt Indian Band Self-Government Act, 1986*

Nisga'a lands: *Nisga'a Final Agreement Act, 2000*

3. On Crown Land (Own Band)

Indian Register individuals who are band members or who are descendants of band members residing on Crown land in a community administered by their band.

4. On Crown Land (Other Band)

Indian Register individuals who are band members or who are descendants of band members residing on Crown land in a community administered by other bands.

5. On Crown Land (No Band)

Indian Register individuals who are band members or who are descendants of band members residing on Crown land not administered by any specific band.

6. Off Reserve

Indian Register individuals who are band members or who are descendants of band members residing neither on reserve nor on Crown land.

Distinction between the words "Band" and "Reserve"

A **band*** simply refers to a "...body of Indians...".

A **reserve***: "...(a) means a tract of land, the legal title to which is vested in Her Majesty, that has been set apart by Her Majesty for the use and benefit of a band, ..."

At December 31, 2002, there were 614 Bands in Canada, and 2,720 reserves.

NOTE TO USERS

The Indian Register is meant to record individual names in accordance with specific sub-sections of the *Indian Act*. The Indian Register does not include all persons who are entitled to be registered according to the *Indian Act*, only those who have applied to be registered and whose entitlement has been verified. Therefore, data from the IRS may not fully meet the requirements of some statistical activities (e.g. demographic projections, migration patterns).

There is a reporting lag between the occurrence of a given life event and its being reported and recorded for updating of the Indian Register. This means that events occurring prior to December 31, 2002 may not be reflected in the Indian Register as documented on that date. The following examples illustrate this concept:

1. Infants entitled to be registered at birth may not be registered by the December 31st reporting date. Parents often do not report the birth until a later year. It is estimated that of all births reported in 2002, approximately 68 percent had actually occurred prior to 2002.
2. Individuals can remain on the Indian Register for some time after they are deceased. A certificate of death or a confirmation of presumed death is normally required to remove a name from the Indian Register.
3. Residency codes are typically updated when a life event is reported, although some bands do it more frequently.

SOURCE OF DATA

Individuals are considered Registered Indians if their names appear on the Indian Register. Names are added or deleted from the Indian Register based on legal sources of information such as provincial birth or death certificates.

The addition or removal of a name to or from any part of the Indian Register is approved by the Registrar as set out in the Indian Act.

The following concepts may affect interpretation and utility

1. Data in the detailed tables are presented by registry group. A registry group is an administrative term applied to a group of Indian Register individuals who have membership in a particular Indian band, or, are descendants from members of that band. A band usually relates to only one registry group except in the following three cases: Six Nations of the Grand River band in the Ontario Region consists of 13 registry groups (pg.xiv); Stoney band in the Alberta Region consists of 3 registry groups, Stoney (Chiniki), Stoney (Wesley) and Stoney (Bears paw); and the Champagne and Aishihik First Nations band in the Yukon Region consists of two registry groups (Aishihik and Champagne). The registry groups related to these bands are noted in the detailed tables.
2. Affiliation of an individual with a particular registry group in the Indian Registration System is based on ancestry and may not equate to local band membership rules. Bands may choose to legally take control of their membership rules in accordance with Section 10 of the *Indian Act*. There are currently **232** bands who have done so. Membership may be determined by other than the *Indian Act*, such as the *Cree-Naskapi (of Quebec) Act* (9 bands), the *Nisga'a Final Agreement Act* (4 bands), the *Sechelt Indian Band Self-Government Act* (1 band) and the *Yukon First Nations Self-Government Act* (7 bands). The statistics in this publication report the number of individuals who are registered with a registry group and make no statement as to whether or not they are band members.

X

3. Only the counts for residence codes 1 and 3 identify the location of individuals. The counts for residence codes 2, 4, 5 and 6 do not indicate that the individuals reside in that particular region necessarily.
